

# American Fork Police Department Training Inventory

**Date:** June 29, 2026

## Request Description

Pursuant to the Utah Government Records Access and Management Act (GRAMA), I respectfully request any existing records identifying the training materials, courses, manuals, lesson plans, presentations, videos, online training modules, or other instructional materials currently used by the American Fork Police Department to train sworn law enforcement officers.

To the extent maintained by the department, I request records identifying the following information for each training program or instructional material:

- Title or name of the training.
- Subject or topic of the training.
- Type of material (such as policy manual, lesson plan, presentation, video, online course, handbook, or other instructional material).
- Whether the material is currently used by the department.
- Whether the material was developed internally by the department or obtained from an outside organization or training provider, if maintained.
- The name of the outside organization or training provider, if applicable and maintained.

If the requested information is maintained in more than one existing record, I request all records reasonably necessary to provide the information listed above.

If any requested information is not maintained by the department or is not contained in the records provided, please identify which requested items are not maintained or are unavailable.

If any portion of the requested records is withheld or redacted, please identify the specific legal basis for each withholding or redaction as required by GRAMA and release all reasonably segregable portions of the records.

If the requested records are maintained electronically, I prefer to receive them in electronic format (such as PDF or spreadsheet) by email.

If fulfilling this request is expected to result in fees exceeding \$25.00, please notify me and provide an estimate before processing the request.
