

AMERICAN FORK CITY COUNCIL
JANUARY 23, 2018
REGULAR SESSION MINUTES

ATTACHMENT

Members Present:

Bradley Frost	Mayor
Barbara Christiansen	Council Member
Staci Carroll	Council Member
Kevin Barnes	Council Member
Rob Shelton	Council Member
Clark Taylor	Council Member

Staff Present:

David Bunker	City Administrator
Camden Bird	Admin Analyst
Wendelin Knobloch	Associate Planner
Terilyn Lurker	City Recorder
Kyle Maurer	Finance Officer
Aaron Brems	Fire Chief
Leif Nelson	Fire Captain
George Schade	IT Director
Kasey Wright	Legal Counsel
Colleen Eggett	Library Director
Derric Rykert	Parks and Recreation Director
Jessie Mckenna	Paramedic
Darren Falslev	Police Chief

Also Present: Dan Fugal, Guy Fugal, Deven Rigby, Josh McCabe, Jess Green, John Woffinden, Geoff Dupaix, Ann Long, David King, Trever Rigby and family, Josh Walker, Ryan Hunter, Kristina Weseman, Joe Phelon, Anji Branch, David Bell, scouts and their leaders, and approximately 10 additional people.

REGULAR SESSION

The American Fork City Council met in a regular session on Tuesday, January 23, 2018, in the American Fork City Hall, 31 North Church Street, commencing at 7:30 p.m.

1. Pledge of Allegiance; prayer by Council Member Christiansen; roll call.

Mayor Frost welcomed everyone to the meeting. Those present recited the Pledge of Allegiance and Council Member Christiansen offered a prayer.

The following scouts were present:

Troop 813: Gage Shields, Wyatt Larsen

Troop 831: Silas Robison, Korhen Portillo, Jaxon Peterson, Jared Gallman, Trenton Nelson, Chance Hall, Spencer Lloyd

Troop 1106: Nathan Marrott

2. Twenty-minute public comment period—limited to two minutes per person.

Jess Green said it came to his attention that the Mayors of Lehi and American Fork met concerning his farm. He wished they had talked to him beforehand, because no one should have a say in his property but him. He said the road that was projected to go through this property would end up thrown out of court like the last time this was attempted. Mayor Frost said this meeting did not take place; they had not discussed the road or the adjacent pasture land.

Mr. Green stated he wanted everyone to know that he had a deep love of the community. He said he would fight to the death to prevent the City from taking his land. He said the pasture and the road way were not for sale. He said he understood that Lehi also did not want the road to go there. He said during his time as Mayor they accomplished projects such as the library, the LDS Temple and parking, and purchased park area. He was concerned about the City trying to build this road because it would be a burden on the people of American Fork. He said it would cost \$337,000 per acre and the citizens would not want that burden. He restated that it was his property to sell and no one else's.

Council Member Shelton said he understood that this would be a part of a larger study according to MAG. He did not know about any talk of eminent domain. Mr. Green said there had already been a cost of \$700,000 in lost time concerning this road. He thanked the Mayor and Council for the opportunity to address them.

Dan Fugal said he owned property south of 700 North. When he bought the property it was an old gravel pit and was called the Niels Fugal Sons Company Land Recovery Class 4 Landfill. Its current zoning remained unchanged since they purchased the land. Filling the pit would put it back to its original surface and land contour, thereby making the property usable for the future. He said his brother Guy Fugal would address the closure plan in greater detail.

Guy Fugal said there had been some concerns brought to their attention from Mr. Thorne. He had spent some time with him to explain the closure plan. There had been some water issues that they had worked out. They had almost completed laying all the top soil and planned on seeding with native grasses. He said they also worked with the HOA regarding this property.

Council Member Barnes asked if they would be planting native grasses on the entire property, to which Mr. Fugal answered in the affirmative. He said they would eventually sell the land.

Council Member Taylor said he used to go to that gravel pit with his grandfather when he was young.

Devon Rigby asked Mr. Fugal if they planned on conducting surveys to make sure there were no sinkholes; he was concerned with the safety of the neighboring homeowners. The Fugals responded in the negative and said they put in lifts as they filled the property to ensure its safety.

Josh McCabe thanked Council Member Barnes for voting in favor of the property owner selling their land to Costco. He said there was a water outage and the notice they were given was too short; the City knew about the outage for two or three weeks. He was also concerned about the committee minutes on the website and stated they were out of date. The Mayor said staff would address the issue.

Council Member Taylor asked Mr. McCabe if he was interested in filling any of the open seats. Mr. McCabe said he was open to the idea. In response to a question from Council Member Barnes, Mr. McCabe said he felt like he could make a difference by participating with the City.

Council Member Shelton said he would like to have a discussion about getting out notices more effectively.

3. Presentation of the HERO Award to Trevor Rigby and adopting a resolution declaring January 23, 2018, as Trevor Rigby Day. (Requested by Terilyn Lurker, Recorder)

Mayor Frost stated the City wished to recognize members of the community for heroic efforts. The HERO award did not necessarily involve saving a life; rather, it was about providing valuable service to the community. He invited Fire Chief Brems to present the award.

Fire Chief Brems said they witnessed a lot of bad incidents happen in their work, so he commended the Council for celebrating success stories. He said they would create a plaque to hang in the Council Chambers to celebrate the recipients of this award. He invited Captain Nelson and Paramedic Jessie Mckenna up to share the details of this event.

Leif Nelson said they met Trevor Rigby when he called 9-1-1 to help his sick father. He was able to use the first-aid training he learned from scouting to keep his father alive. Captain Nelson said they were good at what they did, but it could take some time to reach an emergency. Trevor's actions saved his father's life while he waited for the ambulance.

Chief Brems gave Mr. Rigby a challenge coin from the Fire/Rescue Department. Mayor Frost read the Resolution declaring January 23, 2018, as Trevor Rigby Day.

Council Member Shelton moved to adopt Resolution No. 2018-01-02R declaring January 23, 2018, as Trever Rigby Day. Council Member Taylor seconded the motion. All were in favor.

Council Member Shelton expressed admiration for the Rigby family.

Chief Brems said he wanted to publicly thank Captain Nelson, paramedic McKenna and the entire Fire Department for the great service they offered the City. He said it was great to celebrate this type of story. He also appreciated the support of the Council and Mr. Bunker.

4. City Administrator's Report

David Bunker had nothing to report.

5. Council Reports

Council Member Christiansen said the library board met recently and they would be welcoming new members today. They looked at the budget and wanted a slight increase to keep up with inflation.

Council Member Shelton said he participated with the scouts at the fitness center. He also reported having attended the North Pointe board meeting and was elected as an alternate to the NUERA board. They looked for economies of scale like the Bay View Landfill that was purchased last year. He said they would start to see savings from this action in June. Council Member Shelton said he attended the 9-1-1 dispatch meeting where they looked into methods to improve its effectiveness. Lastly, he reported having met with the Chamber of Commerce concerning Steel Days.

Council Member Barnes and Council Member Taylor had nothing to report.

Council Member Carroll said she met with the Steel Days committee.

6. Mayor's Report

Mayor Frost gave the State of the City address. (See attachment.)

COMMON CONSENT AGENDA

(*Common Consent* is that class of Council action that requires no further discussion or which is routine in nature. All items on the Common Consent Agenda are adopted by a single motion unless removed from the Common Consent Agenda.)

1. Approval of the January 2, 2018 special session minutes
2. Approval of the January 9, 2018 City Council minutes

Council Member Taylor moved to approve the Common Consent agenda. Council Member Shelton seconded the motion. Voting was as follows:

RESULT:	APPROVED [UNANIMOUS]
MOVER:	Clark Taylor, Council Member
SECONDER:	Rob Shelton, Council Member
AYES:	Barbara Christiansen, Staci Carroll, Kevin Barnes, Rob Shelton, Clark Taylor

ACTION ITEMS

1. Ratification of City payments (January 3, 2018 to January 16, 2018) and approval of purchase requests over \$25,000.

Council Member Carroll moved to ratify City payments (January 3, 2018 to January 16, 2018) and approve purchase requests over \$25,000. Council Member Taylor seconded the motion. Voting was as follows:

RESULT:	ADOPTED [UNANIMOUS]
MOVER:	Staci Carroll, Council Member
SECONDER:	Clark Taylor, Council Member
AYES:	Barbara Christiansen, Staci Carroll, Kevin Barnes, Rob Shelton, Clark Taylor

2. Review and action on appointments to Committees and Boards. (Requested by Terilyn Lurker, Recorder)

Council Member Christiansen moved to approve the appointments as presented. Council Member Carroll seconded the motion. Voting was as follows:

RESULT:	APPROVED [UNANIMOUS]
MOVER:	Barbara Christiansen, Council Member
SECONDER:	Staci Carroll, Council Member
AYES:	Barbara Christiansen, Staci Carroll, Kevin Barnes, Rob Shelton, Clark Taylor

3. Review and action on a Resolution establishing Continuity in Government in American Fork City. (Requested by Terilyn Lurker, Recorder)

Council Member Carroll moved to adopt Resolution No. 2018-01-03R establishing Continuity in Government for American Fork City. Council Member Taylor seconded the motion. Voting was as follows:

RESULT:	APPROVED [UNANIMOUS]
MOVER:	Staci Carroll, Council Member
SECONDER:	Clark Taylor, Council Member
AYES:	Barbara Christiansen, Staci Carroll, Kevin Barnes, Rob Shelton, Clark Taylor

4. Review and action on a resolution adopting a No-Fault culinary water, pressurized irrigation, sanitary sewer, and storm water sewer failure claims program. (Requested by Terilyn Lurker, Recorder)

Mayor Frost said he did not attend the work session but had reviewed this item. He was told there were changes made to the resolution and asked for any questions.

Council Member Carroll asked if this was an insurance policy and what role it played. Council Member Shelton said insurance did not fit into this process. They would set aside money in the budget to assist what insurance did not cover in these situations. He said that an insurance policy

would be too expensive. Council Member Barnes said homeowners insurance would not cover groundwater from outside the home.

Council Member Shelton said he felt comfortable passing this resolution, but would like to have a process created on how this program would be implemented. Mr. Bunker said the point-of-contact was the Public Works Director or a designee.

Council Member Carroll moved to approve Resolution No. 2018-01-04R adopting a no-fault culinary water, pressurized irrigation, sanitary sewer, and storm water sewer failure claims program. Council Member Barnes seconded the motion.

Council Member Christiansen made a correction on the wording in the resolution.

Council Member Carroll and Council Member Barnes accepted the correction. Mayor Frost called for a vote on the motion. Voting was as follows:

RESULT:	APPROVED [UNANIMOUS]
MOVER:	Staci Carroll, Council Member
SECONDER:	Kevin Barnes, Council Member
AYES:	Barbara Christiansen, Staci Carroll, Kevin Barnes, Rob Shelton, Clark Taylor

5. Review and action on the approval of the COPS Grant awarded to the American Fork Police Department. (Requested by Terilyn Lurker, Recorder)

Police Chief Falslev said this was an important grant for American Fork. It was a highly competitive grant and only 16% of the agencies who applied were successful on obtaining funds. This was also important because they built relationships with the community with implementing community policing. This grant would benefit the Jr. High because that was where they would assign the additional officer. The grant would pay \$125,000 over three years in wages and benefits. In negotiating with the school district, there would be no cost to the City for three years.

Council Member Shelton asked if the agreement with the school district continued as long as there was an SRO assigned. The Chief said they intended for this agreement to continue in the future.

Council Member Carroll said she was impressed they were able to get the grant. She asked if they would be hiring a new officer and what would happen the fourth year. Chief Falslev said the fourth year would carry over because they were implementing the money in January instead of the beginning of the new fiscal year. They were either required to re-hire someone who was laid off or hire someone new. In this case they would hire someone new.

Council Member Barnes asked if they could apply for the grant every three years. Chief Falslev said the grant was offered every year; they would apply every year but the process was highly

competitive. Council Member Barnes said he was grateful for the police department and remarked that this was a benefit to the community.

Council Member Taylor said he did not think this happened by accident. He commended Chief Falslev for all that he had accomplished during his tenure as Police Chief.

Council Member Shelton moved to approve the COPS Grant as awarded to the American Fork Police Department awarding federal funds over a three year period for \$125,000 and authorize the Police Department to secure the vehicle and necessary equipment for the additional officer. Council Member Taylor seconded the motion. Voting was as follows:

RESULT:	APPROVED [UNANIMOUS]
MOVER:	Rob Shelton, Council Member
SECONDER:	Clark Taylor, Council Member
AYES:	Barbara Christiansen, Staci Carroll, Kevin Barnes, Rob Shelton, Clark Taylor

6. Review and action on an ordinance amending Chapter 10.29 of the City Code regarding fire lane parking restrictions. (Requested by Terilyn Lurker, Recorder)

Council Member Carroll moved to adopt Ordinance NO. 2018-01-08 amending Chapter 10.29 of the City Code regarding fire lane parking restrictions. Council Member Christiansen seconded the motion.

Council Member Barnes said he hoped they took an active role in enforcing this ordinance.

Mayor Frost called for a vote on the motion. Voting was as follows:

RESULT:	APPROVED [UNANIMOUS]
MOVER:	Staci Carroll, Council Member
SECONDER:	Barbara Christiansen, Council Member
AYES:	Barbara Christiansen, Staci Carroll, Kevin Barnes, Rob Shelton, Clark Taylor

7. Review and action on an agreement with the American Fork Chamber of Commerce for the upcoming Steel Days Celebration and Concerts in the Park. (Requested by Terilyn Lurker, Recorder)

Mayor Frost stated this was a one year contract.

Council Member Shelton said in Section 1.1 his concern was with the word “will”. He felt the word “may” would be better because it would give them the option to not put on an event. He asked that in Section 1.1 they add to Garden Tours “...in coordination with the Beautification Committee”. Section 1.3 should note who would collect the revenue from the events. He understood the revenue would go to the Chamber and they should make that clear.

Kasey Wright, Legal Counsel, stated that the Chamber would collect all the revenue.

Council Member Shelton noted Section 1.6 should indicate the Chamber was fiscally responsible. Mr. Wright said the understanding was they were responsible for all the expenses and revenue. Council Member Shelton said the domain name for Steel Days needed to be corrected in Section 1.8. In addition, they needed to specify in Section 3.1 the \$20,000 would be coming out of the 2018 fiscal year.

Council Member Shelton asked if they could figure out the city employee overtime for the Chamber staff. Kyle Maurer, Finance Director, said he spoke with Chief Falslev, who was the only one who had tracked overtime for his staff. The other department heads had not tracked their staff's overtime. He said they could reach out to the department heads and make estimates.

Council Member Taylor said the original proposal had a not-to-exceed number. Mr. Bunker said they did not have exact numbers from Public Works. They talked about possibly using more volunteers. They would work with the committee on the overtime issue.

Council Member Shelton said it was not fair that the City was taking all the liability when the Chamber would get the revenue. This was stated in Section 4.1 and he would like the Chamber to pick up the liability. Mr. Wright said the Chamber was taking liability for everything except the fireworks. Council Member Shelton stated there was some exclusion in Section 4.1. Mr. Wright said they would have an insurance policy to carry the liability. There would have to be negligence by the City for them to be liable for any incident. Josh Walker said the Chamber had discussed a willingness to be liable for the car show and the 5k run.

Council Member Shelton said they came up with different language regarding the "Terms of the Agreement". He said they should include language stating that permits were the responsibility of the Chamber in order to avoid any potential problems with the State. He said the only permit for which the City was not responsible was the fireworks. The collection and payment of sales tax needed to be done through the Chamber's administration. Council Member Shelton said he was concerned with the dates of Steel Days because it conflicted with the 4th of July. He stated they needed to be aware of the parade's liability. He said it was important to put in the agreement the date the magazine would be printed and mailed every year, and suggested they print the magazine by the first week in June. Council Member Shelton said they needed to reserve Quail Cove Park by November of the previous year and should add this to the agreement.

Council Member Shelton asked about the tickets sales. Mr. Walker said the Chamber would be responsible for the collection of the revenues and would coordinate with the City for ticket sales. Mr. Walker said they would have an individual coordinate with the local businesses to help with ticket sales as well.

Council Member Shelton asked if they could state what planning and coordinating was entailed in Section 1.2 for clarification. Mr. Wright said they should include information about obtaining

permits, setting timelines and other planning tasks. Council Member Taylor said choosing the date was important but the Chamber should handle everything else. Mr. Walker said this would be Council Member Carroll's responsibility to communicate with the Chamber.

Council Member Taylor said he thought using the term "may" was a good change. Mr. Wright said this change would allow the Chamber to decide to do none or all the events. Council Member Taylor said the Council was forming a partnership with a body they expected to act in the City's best interest.

Council Member Barnes asked if he was suggesting wording in Section 1.2. Council Member Shelton clarified that the changes he was suggesting were in Sections 1.1, 1.2, and 1.3.

Council Member Shelton said a golf tournament was a part of Steel Days and it needed some recognition within the agreement as well.

Council Member Carroll expressed concerns with creating a financial profile with only one department tracking overtime pay. Mr. Walker said they could manage the work hours with volunteers and get approval for additional expenses. Council Member Carroll asked who would be responsible for paying overtime. Council Member Shelton added that there could be issues from City workers asked to volunteer while others were paid.

In response to a comment from Council Member Shelton, Mr. Wright said no individual Council Member had authority to enter into agreements alone. Only those who were authorized in the policy could make agreements.

Council Member Christiansen said clarification was needed because employees could make promises without having proper authority. Mr. Wright mentioned that there was already a policy in place which spoke to this matter. He did not want to complicate future contracts with additional language. Council Member Christiansen suggested they reference the policy in question within the contract.

Council Member Barnes asked if they could clarify the \$12,000 overtime for the police department in Section 3.4. He also noted that in Section 4.3 there was a typo that needed to be fixed.

Council Member Carroll asked Mr. Wright if they should keep things vague in the agreement or be more precise to protect the City. Mr. Wright said there were problems with both. His opinion was to have a generic provision and other specifics; however, he did not want to put limitations on what specifics could be included.

Council Member Carroll moved to table this to work through some of the issues. Council Member Barnes seconded the motion.

Mayor Frost asked how the Chamber felt about tabling the discussion. Mr. Walker said there was a lot to change but he wanted to make sure everyone was comfortable with the agreement. Council Member Carroll asked if he was comfortable with the agreement, to which Mr. Walker responded in the affirmative. He said they needed to obtain final approval from the Chamber once the Council approved the agreement.

Council Member Shelton made a substitute motion to approve the agreement with the Chamber of Commerce for the management of Steel Days and Concerts in the park subject to the following changes:

- **Section 1.1 should read, “...for and may include the following events in the Steel Days celebration coordinated with the City.”**
- **Strike item F from Section 1.1 (Youth Dance)**
- **In Section 1.1 add to Garden Tours “In coordination with the Beautification Committee”**
- **Section 1.9 ULR should read “steeldaysaf.com”**
- **Section 3.1 - First sentence should read “City agrees to contribute up to Twenty Thousand Dollars (\$20,000) to be paid to the Chamber for the Steel Days Celebration out of the 2018 budget and annually thereafter.”**
- **In Section 4.1 strike “Subsection 1.3” reference referring to indemnification**
- **In Section 4.3 should read “City shall be responsible for....”**
- **Add in Cooperation section “including but not limiting to the cooperation and assignment of contracts as necessary” with a reference that the Steel Days dates will be agreed upon by the City and the Chamber of Commerce on or before December 31.**
- **Section 1.2 should read “The Chamber agrees it will plan and operate (including but not limited to all permits and licenses necessary from government agencies and collection of sales tax as necessary) the Steel Days events....”**

Council Member Taylor seconded the motion.

Council Member Shelton said he worked in good faith with other organizations, and hoped they could continue to do so.

Mayor Frost called for a vote on the motion. Voting was as follows:

RESULT:	APPROVED [UNANIMOUS]
MOVER:	Rob Shelton, Council Member
SECONDER:	Clark Taylor, Council Member
AYES:	Barbara Christiansen, Staci Carroll, Kevin Barnes, Rob Shelton, Clark Taylor

Mr. Walker said they understood the responsibility and historical importance of Steel Days; they would not take this responsibility lightly.

Council Member Shelton asked employees to be informed that Council Member Carroll and the Chamber were involved with Steel Days.

8. Consideration and action to enter into a closed session to discuss the character or professional competence of individuals, to discuss pending or reasonably imminent litigation, to discuss the purchase, lease or sale of real property, or to discuss other items described as allowed in Utah State Code 52-4-204, 52-4-205.

Mayor Frost said the regular session would adjourn at the conclusion of the closed session.

Council Member Shelton moved to enter into to a closed session to discuss pending litigation in the downstairs workroom at 9:35 p.m. Council Member Taylor seconded the motion. All were in favor.

The City Council entered into a closed session to discuss pending litigation at 9:44 p.m. Those present included Mayor Frost, Council Member Barnes, Council Member Carroll, Council Member Christiansen, Council Member Shelton, and Council Member Taylor. Also present were City Administrator David Bunker, City Attorney Kasey Wright, Police Chief Darren Falslev, Fire Chief Aaron Brems, and City Recorder Terilyn Lurker.

The closed session was audio recorded as required by State law.

Council Member Barnes moved to return to regular session at 9:56 p.m. Council Member Carroll seconded the motion. All were in favor.

9. Adjournment

Council Member Taylor moved to adjourn the meeting. Council Member Shelton seconded the motion. All were in favor.

The meeting adjourned at 9:56 p.m.

Terilyn Lurker, City Recorder

STATE OF THE CITY

DELIVERED JAN 2018

Opening

On January second I took an oath as part of my becoming Mayor of American Fork City. As part of my oath I swore to “discharge the duties of my office with fidelity.” Fidelity, meaning faithfulness as demonstrated by continuing loyalty and support. I gladly accept these terms. In ancient Athens these terms were codified by an oath that *every* person had to take to gain citizenship. Among other things they committed to “fight for the ideals and Sacred Things of the City,” and “strive unceasingly to quicken the public's sense of civic duty.”

Rather than just giving stats for the State of the City address, I want to talk about how we as a residents all take an oath, even if figuratively, when we gather together in this social contract that is a community. By so doing we commit to living with and around each other; to share our time, values, and space, and to work together for a collective shared vision of what we want this city to become. Through that lens I deliver this State of OUR City address and look at how we did in serving our collective community in 2017.

Volunteers

Including myself, there are six elected officials that set the vision and policy for the City. We act on behalf of the citizens and businesses. But we cannot do it alone. We have terrific employees that help us accomplish this. Many of them go above and beyond their regular job duties because they have invested into our community and share those ideals.

But staff and elected officials are only part of what makes this city run. American Fork has 13 boards, commissions, or committees that help us shape and achieve our goals. In total that's 80 volunteers who give of their time, month after month, year after year, for little to no pay. Why do they do it? Because of their love of American Fork. And these committees do incredible things.

Steel Days is a huge event that is run by volunteers. They put in absurd hours leading up to and during Steels Days. The PARC Tax Committee is entrusted with reviewing and recommending projects to spend sales tax money on. With their help the City has invested almost \$2 million dollars back into the community, funding plays and performances, adding bathrooms, pavilions, and parking to many existing parks, and creating entirely new parks. Then there is the Planning Commission, who work as hard as anyone else for the benefit of the City. The single largest topic the city council deals with on a regular basis is land use, and virtually all items dealing with growth and development are vetted first by our Planning Commission. They shoulder a great responsibility to look after the future of our city through careful review and wise recommendations. As Mayor and Council we trust and respect them, and are grateful for their service.

We have great volunteers that serve and in very tangible ways, further the ideals of the community.

Businesses

I feel there are three cogs in the machine that keeps our community operating. One cog is the people, another is the government those people set up, and the final cog is the businesses. American Fork has over 1,500 businesses that are terrific partners in the community, each dedicated to making this a better place. I am always impressed by the support these businesses offer each other as well as the residents. And by support I don't just mean great customer service. I mean actual service. They facilitate donations, volunteering, gifts, and networking. Organizations like Tabitha's Way is an example of many businesses in American

Fork, and a metaphor for how we should all be. While Tabitha's Way is located in American Fork, their service goes far beyond our borders. For them it's not a matter of who belongs and who doesn't. It's a matter of who's in need and who can help. These are the testimonies that show how our businesses don't just work in our community, they are a part of our community.

Public Safety

Our Police and Fire do much for us. Last year our Police had almost 30,000 service calls, made 233 felony arrests, and averaged 1,252 open investigations. Similarly, our Fire & Rescue handled 2,895 calls for service, which is just under Lehi, who is double our population. These brave men and women have taken an oath to protect and serve. That is their job. But their love of that job and the community has driven them to do much more than what is required.

Last year our Police decided to do something about the growing number of domestic violence cases. They assigned one investigator full time to domestic violence cases and began offering public education programs to the community. In fact, I personally worked closely with our Police and Utah County to put together a regional town hall meeting to educate people on the issue and connect those in need to available resources. Our police are often the first call on incidents, but they remain involved, often meeting with many other agencies along the way, to ensure the best outcome of each domestic violence case.

In an effort to be proactive our Police and Fire departments started a program where they have equipped and trained our Police officers who are typically first on scene to use Narcan, a drug that can save the lives of those succumbing to a drug overdose. In another example of doing more, our Fire department has begun to train with our Police department so they can provide lifesaving services to injured people DURING an active shooter situation rather than waiting until AFTER it's safe to go in and triage.

Our residents enjoy lower insurance costs thanks in part to the responsiveness to our Fire department. Our Police Chief has taken an active role in legislature that impacts public safety and now sits on a policy making board at the capital. Finally, our Fire department working

towards certifying all City employees to be CPR ready. This will dramatically increase our ability to respond in an emergency.

The point is, these actions show how our community is in good hands with a Police and Fire department who actively, rather than reactively, serve and protect all of us.

Growth

Mayor Hadfield would always say the only constant in life is change. I believe by this he was trying to help us understand that our city is growing, and will continue to grow. Right now our city is about 10 square miles, roughly 75% built out, with a population of about 30,000 residents. By the time we are fully build out we expect to double in population and increase geographically to 13 square miles.

We live in a great town with great people. But it's myopic to think that the only way to keep it great is to not change it. Closing the doors and the borders will cut us off from the better things to come. We need to think higher than that and realize that if we work together to be a strong, unified, and involved community, then we will maintain our identity as growth occurs. In fact, our identity will be transmitted to all who come in. If we can't avoid change we need to embrace it and direct it. I want growth to work for us. Growth should increase our access to resources and amenities and open up new channels for transportation, while still giving us a sense of community and one-ness.

I think it's key to not stifle development, but to not be caught off guard by it either. The south side of our city is a perfect example of how we need to be smart about growth. With the front runner station next to so much undeveloped land, we know development is going to happen eventually. UDOT knows this as well. That is why they are considering routes for a major transportation corridor south of I-15. In an effort to set our own destiny, we as a city have master planned the area in order to provide a framework for growth while still allowing flexibility based on stakeholder input. We want as much input as possible so we can accurately assess what the best interest is for the city as a whole. If we aren't proactive the impending development will leave the area with congestion similar to that at Thanksgiving Point.

Closing

In settings like this I can only ever touch on a few groups to make my point. But I think these groups are representative of the larger whole. And while every resident of American Fork doesn't take an official oath to "fight for the ideals and Sacred Things of the City," our actions have shown that maybe we are not so different from the people of Athens. In many ways we showed in 2017 that we have worked together, to do something more, for the community we love. And because of that, we can echo the Athens long ago in the final line of their oath: "Thus, in all these ways, we will transmit this City not only, not less, but greater and more beautiful than it was transmitted to us."

Thank you
